Europlus®

With GROHE SilkMove® Technology

GROHE
ENJOY WATER®

ENJOY WATER®

Europlus® NEW

Timeless European Design

The timeless design of the new Europlus balances a contemporary aesthetic with superior ergonomics. A versatile and great value faucet, it brings comfort and clarity to the bath-room environment. The enduring aesthetic appeal ensures that every detail has been carefully considered, from the coordinated lift-rod to the tapered spout.

Performance Features:

- The smooth, precise action of **GROHE SilkMove®** ceramic cartridge technology for lifelong, effortless water control
- Enhanced even further with **GROHE WhisPer®** Technology – you won't hear anything but the water hitting the bottom of the sink
- **GROHE StarLight®** Technology for a deep, lustrous long lasting chrome finish
- **GROHE WaterCare** option (model 33 170 00E) offers 30% water savings

Signature elements

"Signature elements" is visual DNA – a design language unique to GROHE. Perfect rings give rise to the cylindrical form from which our faucets are born. Seven degrees is the angle at which the lever is pitched. This subtle incline enhances the user experience and facilitates interaction with our products. Lozenge shapes visually interpret the GROHE Sensual Minimalism philosophy, humanizing the core values of minimalism with their tactile appeal.

¹ GROHE WaterCare® products – 1.5 gpm – 30% water savings

² Trim requires a Grohsafe® pressure balance rough-in valve sold separately.

³ Trim requires a Grohsafe® pressure balance rough-in valve with built-in diverter sold separately.
