Ladylux³ **NEW**

Purely Perfect

A GROHE classic that has evolved with the times, the Ladylux (the original kitchen pull-out faucet) is the centerpiece of some of America's finest kitchens. GROHE's best-selling pull-out faucet has been given a new, updated look that combines the innovative design of today's modern kitchens with the functionality and durability of a professional tool. The new Ladylux³ features a dynamic and flowing silhouette with a more streamlined body than its predecessors. The flower-like body rises organically from the counter and merges with an elegantly arched spout and distinctive lever. Available in pull-out and pull-down versions, all feature dual-spray functionality and forward rotation lever handle to eliminate backsplash installation limits.

Performance Features:

- The smooth, precise action of **GROHE SilkMove®** ceramic cartridge technology for lifelong, effortless water control
- **SpeedClean®** anti-lime system – a simple wipe of a finger is all that is needed to remove limescale and maintain “like-new” performance
- **GROHE RealSteel®** Technology – solid, grade 304 stainless steel...the professional's choice
- **GROHE StarLight®** Technology for a brilliant long lasting chrome finish
